**London: 2.25 hours via train  
(Kings Cross) to Rotherham  
Central**

AMG Advanced Metallurgical Group N.V. (“AMG”) is hosting a facility tour and presentation at the AMG Superalloys and AMG Aluminum UK facility in Rotherham, United Kingdom on June 3, 2014. At this facility AMG produces specialty metals including chrome metal, ferro titanium, ferro niobium, aluminum powders, cerium oxide-based glass polishing powders and aluminum master alloys used in aerospace and other industrial applications. This event will provide an opportunity to view the production of these materials, discuss the market dynamics and meet with AMG’s Superalloys and Aluminum leadership team.

### **The presenters include:**

**Mr. Eric Jackson – Chief Operating Officer**

**Mr. Julien Crisnaire – President of AMG Superalloys &  
AMG Aluminum**

**Mr. Jonathan Costello – VP of Corporate Development  
& Corporate Communications**

### **The agenda includes:**

**11:30 Welcome and Presentation by AMG Superalloys  
& Aluminum Management (with lunch)**

**12:30 Facility Tour**

**14:30 AMG Investor Presentation and Q&A**

**16:00 Completion**
